

To Our Locust Valley Community:

**WE ARE OPEN!**  
**And you are welcome to come in with  
your furry family member!**

We are still following strict safety measures as outlined below in order to keep both you and your pets healthy.

Please call the hospital when you arrive to let us know you are here. We will either send someone out to get you and your pet or we will ask you to ring the doorbell so that we can comply with capacity restrictions. Please wear a mask and practice social distancing to the best of your ability when inside. We will ask a series of clearance questions and take your temperature upon entry.

We are also continuing to offer our “curbside” option, where our staff will bring your pet inside, the doctor will perform an exam and will call right after with findings and recommendations.

Please feel free to call with any questions!
